

We are all hearing new information on the proposed health care legislation every day, and I know it's hard to keep track of what is accurate. We all want to make sure any health care reform protects our seniors, middle class families, and small businesses. It is also important that we ensure any reform offers more choices, not less, and keeps spending in check. That's why I decided to post the text of the proposed bill online. I want you to have the opportunity to read the bill as well, and let me know what you think. It's important that Congress be transparent throughout this process.

Below you will find links to the full text and section-by-section summary of H.R 3200, America's Health Choices Act. I will update this page with new information as I receive it.

.

I will continue to study this working legislation and future proposals, and look forward to hearing from you.
